Worried about broken links affecting your website's usability and rankings? Site Checker is a free tool, which crawls through your website identifying broken links for you to fix.

MULTI CHECK

Multi Check enables you to run Dead Link Checker through multiple websites in one go. The report is then emailed to you automatically.

AUTO CHECK

Our most popular service is Auto Check, which runs Dead Link Checker through your website(s) on a regular basis and emails the reports to you automatically.

Why are broken links bad?

- They negatively impact usability - resulting in reduced traffic and conversions.
- They damage your rankings - by preventing search engine website crawlers from indexing pages.

Site Checker is a simple solution for webmasters and SEOs

Identifying broken links on your website is easy and free. To get started, just enter the URL of the site you want to check, and select the scan type. You can also [upgrade to a package that allows automated link checking](#).

DeadLinkChecker.com is an easy to use but advanced broken link checking tool with many features. For a full list of HTML elements that are scanned and checked, see the [key feature list](#).

To access the multi-site checker or auto checker, first [log in](#) or [create a free account](#)
